Professional Summary

Software and Web Developer with 6+ years of experience designing, developing, testing, and supporting enterprise web applications. Skilled in building and maintaining full-stack web solutions, troubleshooting complex systems, and collaborating with cross-functional teams to implement technical solutions that meet business requirements. Experienced across the full software development lifecycle including requirements analysis, development, testing, and deployment.

Professional Experience

Senior Software Developer

Consilio – Chicago, IL

Dec. 2022 – Sep. 2025

- Collaborated closely with engineering, product, and support stakeholders to identify requirements and deliver solutions.
- Supported Sightline, a web-based eDiscovery platform used by law firms and corporate legal teams.
- Managed multiple concurrent technical investigations and requests, prioritizing issues and delivering resolutions in fast-paced environments.
- Participated in the full software lifecycle including requirements analysis, solution design, development, and testing.
- Utilized technologies including HTML, CSS, JavaScript, React, TypeScript, ASP.NET MVC, C#, and SQL.

Web Developer

Robert Half Technology – Chicago, IL

Oct. 2022 – Dec. 2022

- Developed and maintained enterprise web applications for multiple client organizations.
- Collaborated with developers and stakeholders to implement new features and resolve application issues.

Web Developer

Spinutech, LLC – Chicago, IL

July 2021 – July 2022

- Developed and maintained web applications for clients.
- Investigated system issues and implemented fixes to improve application reliability and performance.
- Collaborated with project managers and developers to deliver client solutions on schedule.

Junior Web Developer

American Hotel Register Company – Vernon Hills, IL

Apr. 2018 – Dec. 2018

- Assisted in the development and maintenance of an enterprise e-commerce platform.
- Investigated and resolved user issues through support requests and system troubleshooting.
- Assisted with code refactoring and documentation.

Information Systems Specialist

ACS Group – New Berlin, WI

Oct. 2015 – Mar. 2018

- Build rules for each available product's Configurator application so that Sales and Engineering can generate quotes and sales orders and have it reflect the correct pricing based on the configurations selected.
- Gathered requirements from Sales, Engineering, and Production teams to deliver software solutions.
- Provided training and technical support for internal software systems.

Junior Web Developer

Parker Hannifin Corporation – Lincolnshire, IL

Oct. 2014 – Oct. 2015

- Built an ASP.NET webforms application to serve as a front-end for a SQL Server database.
- Hosted and managed web application on Windows Server using IIS.
- Designed barcode labels using Zebra Designer Pro software.
- Resolved internal help desk tickets related to software and technical issues.
